

The NEW warning signal for overhanging loads – completely in R2!

In the product segment "Warning and danger signals", we are reissuing our classic – **the warning signal for overhanging loads** – with a **fresh new** face. Apart from the day-glow design (with reflector corners), the classic version is **NOW also available completely as R2 version**. Nothing has changed in the tried-and-tested use and handling of the product.

The NEW Triopan warning signal offers you the following additional benefits:

- **Enhanced visibility** due to complete R2 design
- Warning signal **in set** with a **ratchet strap and bag**
- **Velcro strips** to facilitate fixation of the warning signal
- **Blister packaging** with instructions for use

We would be pleased to advise you personally.
You can reach us by e-mail at info@triopan.ch or by phone at +41 71 844 16 16.
